

DRY PET FOOD /
FISH FEED
PRODUCTION
PROCESS

FEEDTECH was founded in 1969 as a family-run feed milling business producing high-quality animal feed for many years. Following these successful yrs, Feedtech began to manufacture their own Feedmill machinery in the early 2000s focussing on bespoke solutions to the animal feed market. Having partnered with two other leading European manufacturers of equipment for several yrs Feedtech produced machinery under license to feed other worldwide countries with high-end technically advanced equipment.

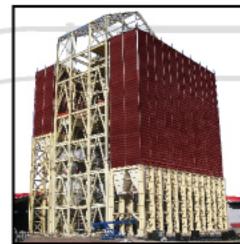

Feedtech now manufactures all its own equipment to fulfill the needs of its customers. This equipment can be found working in Animal feed, pet food, fish food, premix, and biomass Pelleting facilities around the world. More than 70% of Feedtech's production is now shipped to an international audience of customers.

Feedtech has a reputation for being one of the largest feed mill machinery manufacturers in Turkey. It takes pride in offering its customers the best in class, expertise, and technology. From delivering individual machines to full turnkey plant installations Feedtech uses decades of hands-on experience to deliver machinery to not only increase productivity and improve efficiency but helps customers to sustain future growth.

Feedtech has invested hugely over the last 10 yrs to develop a team to sustain their own huge growth. From sales, engineering, manufacturing, design, and R and D departments they deliver the very best services to an ever-growing worldwide customer base and have the capabilities to deliver turnkey operations to a global market. Feedtech Guarantees a high-end solution using the best technology and expertise.

### RAW MATERIAL PROFILLED SILOS

## RAW MATERIAL SMOOTH WALL SILOS

- Modular design Profilled wall
- Bolt together Access - stairs -
- gantry steelwork

## RAW MATERIAL SIFTER

### MICRO-DOSING SYSTEM

**Capacity:** 150 – 500 liter (Per Silo)

### RIBBON MIXER

DPMA-DOUBLE SHAFT PADDLE MIXER

**Capacity:** 280 – 12.000 liter

PM-SINGLE SHAFT PADDLE MIXER

**-Capacity:** 300 – 12.000 liter

# VERTICAL MIXER

**Capacity:** 300 – 4.000 liter
